

## Job Title: Trainee, Engineering

*MacGregor is a leader in sustainable maritime cargo and load handling with a strong portfolio of products, services and solutions. Shipbuilders, shipowners and operators are able to optimise the lifetime profitability, safety, reliability and environmental sustainability of their operations by working in close cooperation with MacGregor.*

### Shape your journey onboard and offshore with us

We are looking for a Trainee, Engineering to work in our engineering team during the summer period. This position is located at our Kaarina office in Finland.

### Main tasks and responsibilities

- Provide technical expertise in various engineering related issues
- Project handling, layout and detail design
- Deliver engineering projects according to agreed schedules
- Give technical support for other departments and customers globally
- Carry out engineering procedures, techniques and sequences to achieve quality and productivity.

### What you'll need to succeed

- You have a few years of studies in machine design as a major or at least as a strong minor
- Or few years of studies in electrical and automation design as a major or at least as a strong minor
- Or few years of studies in strength analysis as a major or at least as a strong minor together with machinedesign
- Ideally you have some experience in 2D & 3D design tools
- You are dynamic, initiative and hard-working
- You are eager to learn more on the way to become a future expert
- You have strong IT skills.

### You will be part of

By joining MacGregor, you will be able to work closely with leading industry professionals, developing and implementing new concepts that set the standards in the maritime transportation and offshore industries. We offer our employees the opportunity to be part of a truly global organisation leveraged upon our shared values of Integrity, Quality and Safety. With us you will be part of a collaborative working culture with challenges and opportunities to further develop yourself professionally.

Our trainee network goes beyond a typical internship experience, creating a holistic environment that nurtures both professional and personal growth. The traineeship is active during the summer, providing opportunities to connect with fellow trainees through various activities and events.

### Interested to join?
